## NEW SECTIONS OF THE UCHC

### Rock-Climbing

A group of eager souls in the club have banded together with the purpose of learning to scramble up sheer cliffs, overhangs, etc. Cooperating with the Rock-Climbing Section of the Sierra Club, members will go out with the Sierra Club on days when no hikes are scheduled. This agreement limits the number of our members who can go out with them to about ten per climb. However, we will also schedule climbs at which as large a number as desire to may go. Sometime during this semester when our group feels qualified, we will launch a new rock-climbing section.

A good pair of rubber soled shoes (preferably tennis shoes with fairly soft soles), and an old shirt and pair of pants are recommended. For further information call Dave Dows, Landscape 5-0509, or Frank de Saussure.

### Cycling

Another newly-formed section of the club is the Cycling Section. This was formed because there has been interest shown in taking bicycle trips when there are no scheduled hikes. The section is under the direction of Ken McCready, a member who has had considerable experience in the field of cycling.

There will be several very interesting cycling trips that all members are invited to attend. Those without bicycles may rent them from local establishments which have good lightweight cycles available at a reasonable cost.

Two trips last semester proved to be very enjoyable. We hope to see many new faces on the road so come on out and join the fun.

## UCHC SONG

### "We're Losted"

I We're losted, we're losted,  
we'll never be found;  
They'll find us next spring  
on the hard frozen ground.  
They'll send out a party,  
they'll look all night long,  
But they'll never, never find us  
because we turned wrong.

**Chorus** We'll smell, we'll smell,  
we'll smell like hell,

We'll smell like hell,  
we'll smell like hell,  
We'll smell, we'll smell,  
we'll smell like hell,  
That's the song of the  
good old Bear Hikers.

II We've hiked and we've hiked on  
for hundreds of miles;  
And if we aren't found soon  
we'll drop dead in piles.  
The more we go further,  
the more we all think,  
Of the glories of springtime  
and how we all stink.

### **Chorus**

III The night's long and weary,  
it'll never get light;  
And we hope it doesn't  
'cause we're sure a sight.  
The most we can hope for  
is it never be said,  
That the good old Bear Hikers  
were ever misled.

### **Chorus**
